Scaling up and modeling for transport and flow in porous media

Mise à l'échelle, homogénéisation & modélisation
des écoulements de fluides en milieux poreux

DUBROVNIK, CROATIA
13-16 OCTOBER 2008

TOPICS

- Flow and transport in heterogeneous porous media
- Multiphase flows
- Multiscale phenomena
- Scaling and heterogeneity in porous media
- Numerical homogenization
- Numerical simulation of multiphase flow in heterogeneous porous media
- Mathematical modeling of multiphase flow in porous media
